

SECOND PRELIMINARY AMENDMENT

Appln. No. 10/526,119

- 7 -

December 28, 2005

REMARKS

Applicants submit herewith a substitute specification pursuant to 37 CFR 1.125. The specification has been amended to eliminate any express references within the description to the claims as originally filed by substituting text as appropriate from the original claims into the description. Headings have also been added as appropriate, and spelling and grammatical corrections have been made. A new Abstract complying with U.S. practice is also provided on a separate sheet. No new matter has been added.

Claims

Applicants have canceled the pending Claims 1-15 and provided new Claims 16-35. The new Claims 16-30 are based upon the canceled Claims 1-15. New Claims 31-35 are based upon the description and the drawing. No new matter has been added.

Summary

Applicants request that the claim amendments be entered prior to examination on the merits. An early and favorable examination is earnestly solicited.

Respectfully submitted,

SYNNESTVEDT & LECHNER LLP
